

History and Mission

In 2011, a group of artists came together to organize a gallery and working studio space. It is operated by and for local artists. The Bismarck Downtown Artist's Co-op's mission is to bring local artists together who share a similar vision in helping the public gain curiosity and interest in the local art scene, as well as exhibiting and marketing a broad palette of art mediums, styles, and ideas. The Co-op's location plays a big role in one of its key goals: to be part of the emerging excitement and energy of the downtown scene by creating an interactive space that brings the community together. Today the Co-op is a thriving art gallery downtown.
